

Pipe Freeze Protection

5
YEAR
LIMITED
WARRANTY
★★★★★

PipeMate Freeze Protection system prevents metal and plastic pipes, sprinkler systems and sewer drains from freezing. The system regulates power output depending on the ambient temperature and therefore decreases the consumption of energy.

100% quality control

Can be overlapped in straight or spiral

Easy installation

Certified advanced technology

Advantages

- Keeps water in pipes flowing
- Used for metal and plastic pipes
- Ready-to-install
- Automatically adjusts to ambient temperature
- Highly durable and reliable
- Energy-saving
